UTAC Wins Texas Instruments 2014 Supplier Excellence Award

Singapore, 9 April 2015 – UTAC Holdings Ltd (UTAC), a Singapore-based semiconductor testing and assembly services provider, today announced that it has received the 2014 Supplier Excellence Award from Texas Instruments Incorporated (TI), a global semiconductor design and manufacturing company that develops analog integrated circuits (IC) and embedded processors.

This is the first time that UTAC has been presented with this prestigious award, which is TI's highest level of supplier recognition and a distinction awarded to outstanding suppliers that play a significant role in supporting the company in meeting its business objectives and priorities. UTAC was among a select group of 16 companies – out of 10,000 TI suppliers – to be named as a recipient of the award, highlighting UTAC's strong performance across key attributes including cost, environmental and social responsibility, technology, responsiveness, assurance of supply, and quality.

“Congratulations to the UTAC team for achieving the 2014 Supplier Excellence Award, TI's highest level of supplier recognition,” said Mr Kevin Ritchie, Senior Vice President of TI's Technology and Manufacturing Group. “TI depends on key suppliers like UTAC to ensure continuity of supply to our more than 100,000 customers, and we value UTAC's commitment to supporting the growing demand for TI's products”, he added.

“We are delighted to receive this award and thank Texas Instruments for their recognition and confidence in UTAC. This honour highlights a successful twelve-year relationship between our companies and we look forward to continuing to contribute to TI's business goals through the delivery of outstanding execution, performance and quality,” said Mr Jeff Osmun, UTAC's Senior Vice President of Worldwide Sales. “The award is also a testament to UTAC's steadfast commitment to providing our customers with world-class testing and assembly solutions that are supported by unparalleled customer service”, he added.
